

Saroyan Mastercrafts

"S.M." is an organization of master craftsmen skilled and specialized in metal crafting, encompassing a background of many years of experience. This includes the development and production of finger cymbals for any style of belly dancing.

"S.M." cymbals, unlike others, are a lighter weight. This allows the performer more freedom of finger movement with less fatigue. Cymbals are of special, top quality brass, handmade and aged by our craftsmen.

"S.M." presents three *authentic*, and two of our own exquisite *modern designs*; all of which, as a result of extensive research and development, produce a unique and exotic sound.

AUTHENTIC DESIGNS:

	Regular	Heavy
Persian	No. 10	No. 10-H
Moorish	No. 20	No. 20-H

There's always
something **New** at

Now we proudly
present two new products:

The NEFERTITI and the
ARABESQUE finger cymbals.

**Saroyan
Mastercrafts**

Our Nefertiti cymbals are light weight with a rich design depicting Queen Nefertiti surrounded by lotus blossoms.

The Arabesque are a heavier weight, featuring the Arabesque design from the frieze of the palace of Sultan Hasan of the 14th century.

We recommend the Nefertitis for beginners and intermediate level dancers, and the Arabesque for advanced and professionals.

Both designs are 2-1/16" diameter and are made of the finest quality brass and aged by our craftsmen.

Care of the cymbals:

**To prevent discoloring, occasionally
polish with turtle wax and hand
buff with soft flannel.**

FINGER CYMBALS BY *Saroyan Mastercrafts*

Saroyan Mastercrafts presents historic finger cymbals handcrafted in five different designs with ten distinct tones for any style of belly dancing. All cymbal styles measure 2 1/8" diameter and are available in regular weight (low tone range) and heavy weight (higher tone range).

Styles and tones featured are:

- Persian — mellow tone
- Moorish — high tone
- Arabic Turkish — medium high tone
- Modern — medium tone
- Contemporary — low tone

We also feature two styles of cymbals with stamped engravings. They are the Nefertiti and Arabesque. Our Nefertiti cymbals have a rich design depicting Queen Nefertiti surrounded by lotus blossoms. These cymbals are lightweight with a mellow tone. The Arabesque are a heavier weight with a medium tone and feature the Arabesque design from the frieze of the palace of Sultan Hasan of the 14th century.

We recommend the lighter weight cymbals for beginner and intermediate level dancers and the heavier weight for advanced and professionals. Our cymbals are precision hand-crafted of special top quality brass and aged by our craftsmen. They have two rectangular slots to fit 3/8" or 1/2" elastics for better control and are packaged in sets of four with pre-cut elastics.

If you can't get the tone color you want in one of these Saroyan cymbals you can't get it anywhere. Our cymbals are endorsed by hundreds of top dancers, instructors and Middle Eastern musicians from coast to coast.

Care of the cymbals:

To prevent discoloring, occasionally polish with turtle wax and hand buff with soft flannel.

ORNAMENTAL COINS FOR COSTUMING

Saroyan Mastercrafts features three coin designs manufactured of the finest tempered steel to give you the most pleasant ring. Our round coins are available in two sizes and feature the Grecian Muses with a Grecian key border design on the large size and the Muses without a border design on the small size. We also feature the new diamond shape coin depicting the Birth of Venus. The diamond shape coin is a Saroyan exclusive design. All coins are available in four colors: *GOLD*, *SILVER*, *RAINBOW* and *COPPER*.

Please note: *GOLD*, *SILVER* and *COPPER* coins are coated to prevent tarnishing with continued wear. The colors on these coins stay brilliant longer than any other manufacturer's coins. However, due to the process used to produce the colors on our *RAINBOW* color coins, the color cannot be guaranteed permanent. *RAINBOW* color coins are a Saroyan Mastercraft exclusive and we feel that the colors are lovely and vibrant enough to continue to produce them.

We suggest the following to keep the colors brilliant:

1. Do not attempt to coat them with lacquer or clear finish as all color will fade.
2. Handle the coins as little as possible while making your costume.
3. Place the coins against fabric rather than on body chains where they would be in contact with skin as the acids in perspiration cause the colors to fade.

PACKAGING

Our coins are packaged in zip-lock plastic bags in the following quantities:

Large round coins and Venus coins are in 1/2 gross (72 coins) packages.

Small round coins in 1 gross (144 coins) packages only.

DELIVERY — Upon receipt of order, merchandise is packaged and shipped the same day by United Parcel Service (UPS).
